

Data Protection Policy

Arun Young Musicians will keep the information from registration and entry forms to enable us to organise our annual festivals and to inform participants of future festivals and concerts. We will keep it for as long as the young people are eligible to enter. We will remove it whenever we are asked.

We will retain teachers' details from year to year so they can be notified about future festivals.

Teachers can ask for their details to be removed at any time. Only committee members have access to the information. Details of participants in our public concerts will however be given to West Sussex County Council (Child Performers Licensing) when these occur.
